

**INQP 2004-2005-2006  
QSO Totals**

This table shows the number of reported QSOs from each Indiana county during the 2004, 2005 and 2006 Indiana QSO Party.

Notes:  
 1) The data is from submitted logs only. Additional QSOs made by stations that did not send in a log is not shown.  
 2) There is no column for 160 meters because there were only five QSOs in three years.  
 3) The table clearly shows that during the low sunspot years, 20m and 40m is the place to be.
